Skills

- PHP
- OpenEdge ABL
- SQL
- HTML
- Javascript
- C, C#, C++
- Git
- Unix Shell
- Python

Experience

04/09/2017 – PRESENT

Software Engineer / Organi, Wilrijk

I currently work here as an OpenEdge ABL developer, maintaining and extending a very big software package for court bailiffs.

13/02/2017 – 05/05/2017

Web Developer (Internship) / Uni-t, Mechelen

For my final project before graduating, I wrote a social media platform for Uni-t. You can read all about this on my portfolio linked in the header.

Education

2014 – 2017

Electronics-IT / Thomas More: De Nayer

Professional Bachelor - Specialization: Networks, Systems and Security.

2011 – 2014

Industrial-IT / Don Bosco, Hoboken

A course which focused mainly on computer systems, electronics and industrial electricity.

Activities

In my spare time I like to code on personal projects. I also do some coding for Frag-o-Matic, a big gaming festival where I work as a volunteer. When I'm not coding I like to play video- and board games with my friends. Since all of this includes a lot of sitting, I like to stretch my legs and strap them in my snowboard to clear my mind.
